## DETAILED ACTION

### *Response to Amendment*

1. Applicant's amendment filed on January 16, 2004 has been entered. No claims have been amended, added or cancelled. Claims 1-12 are still pending in this application, with claims 1 and 12 being independent.

### *Allowable Subject Matter*

2. Claims 1-12 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant teaches a rotatably adjustable reflective mechanism for stage lamps, such mechanism having a fixed outer ring supporting a middle ring and an inner ring. The middle and inner ring are driven by separate power devices. A rotary frame is attached to the middle ring for rotatably supporting mirror means. A transmission device connects the inner ring to the rotary frame by means of two transmission members.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the fixed outer ring, the rotary frame being attached to the middle ring directly, and to the inner ring by means of the transmission device.

**Warnecke** (U.S. Pat. 6,461,021) disclose a rotatably adjustable reflective mechanism for stage lamps, such mechanism having two rotatable and concentric rings, a mirror frame member, a mirror and two power units for rotating the ring. However, **Warnacke** fails to disclose a fixed outer ring and the mirror frame being

attached to one ring, and connected to the other ring by means of a transmission device.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
